### **DETAILED ACTION**

Examiner has made the following restriction requirement after having a careful review of the amended claims filed on 09/07/05. Examiner apologizes the delay of making the following restriction; however, examiner strongly believed that the pending claims cover more than one invention. For the benefit of having a quality search, examiner requires applicant to select one group.

#### ***Restriction Requirement***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 14-28, drawn to Call diversion, classified in Class 379, subclass 211.01.

Group II. Claims 45 and 46, drawn to Secure transaction, classified in Class 705, subclass 64 and to passing a signal identifying the idle or busy state of a channel (e.g., token passing), classified in Class 370, subclass 450.

Group III. Claims 47 and 48, drawn to Telephone Signaling System 7, classified in Class 379, subclass 221.08.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I. Claims 14-28, Group II. Claims 45, 46 and Group III. Claims 47, 48 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In this instant case, invention Group I has separate utility such as for use in determining optimum route to set up a call, whereas invention Group II has separate utility such as for use in secure matching on a hybrid call by using a token as well as invention Group III has separate utility

Art Unit: 2645

such as for use in Signaling System 7 parameter in Advanced intelligent network (AIN). See M.P.E.P. § 806.05(d).

3. Because these inventions are distinct for the reason given above and the search required for Group I is not required for Group II as well as Group III, restriction for examination purposes as indicated proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. **Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).**
